PhotoPlus Gloss	Highest	260gsm	★★★★★	\$\$\$\$	High	High Gloss
PhotoPlus Satin	Highest	260gsm	★★★★★	\$\$\$\$	High	Low Reflection

# MATT MEDIA

LOW COST GREAT QUALITY POSTER PRINTING

**Matt Papers** have a coating that produces great image quality with little glare. Matt posters are good for enhancing designs with a subtle layout and soft colour range.

**Matt Coated - 130gsm.** A lightweight paper ideal for quick short term posters. Quality is good at super price!

**Matt Coated Paper - 160gsm.** A low cost media that delivers surprising quality with a matt finish! This media is ideal for short term use. Ideal for shopping center posters, sale posters, temporary signage. Our most popular media.

**Synthetic Matt Poly Prop - 150 micron and 250 micron.** Synthetic Paper gives you the look of photographic media without the high price. Durable, versatile and tear-resistant, it is an excellent choice for printing posters & is perfect for indoor banners.

**Matt Textured PVC - 285gsm.** This media has a textured finish with a grey back block-out. It has excellent anti-curl properties and is a thick and tear resistant film. Great for roll-up banners and displays, promotional indoor graphics, general exhibition and display work. Any poster or graphic requiring longevity this is the media to choose. Indoor and outdoor suitable.

# SATIN PAPER

GREAT COLOUR REPRODUCTION WITH LOW GLARE

**SATIN PAPER** - has a lower gloss level than gloss finish, yet a higher gloss level than matte finish. Posters print sharp and vivid.

**Satin Photo Paper - 200gsm.** For low cost, indoor graphics such as vivid posters, shopping centre displays, photo-realistic image reproductions, and professional trade show graphics. A perfect solution for those who require the colour vibrancy of a gloss paper without reflection. This media is perfect for poster printing when high quality is required.

**PhotoPlus Satin Paper - 260gsm.** Heavyweight Photo Paper. Ideal for the highest quality posters, photos & point of sale graphics. Water resistant, quick drying, no lamination required for indoor use, excellent image definition and colour fidelity.
